HILLA BLOCKCHAIN-HACKATHON 07.-09.10.2016 @ Oulu Game LAB!

HILLA-program organizes the second "Blockchain Hackathon" in Oulu in the second weekend of October. This event offers you an excellent hands-on opportunity to join the makers of the future and to showcase your competence in this new, rapidly progressing technological area!

Join hackathon as a team (two to four people) to build real blockchain-based prototype applications during 48 hours. You and your team may use your own idea or choose some of the predefined problem description presented on the hackathons Facebook web site. Prototypes are presented to a jury that evaluates them based on technical and business proficiency. **Best team is rewarded with a monetary prize (3000€).** Each team should have at least one participant with experience in programming. Business competence in teams is also appreciated.

On this Hackathon we are going to use the IBM Bluemix platform. IBM is offering on-site support and guidance. You and your team can start to think about your idea and explore opportunities that Bluemix platform can provide to improve your chances to win.
